19. Can you deal with a pug who snores? Yes no

20. Can you deal with a pug who sheds (most do)? yes no

In case this pug has an emergency or comes down with a serious illness, please contact: Connie Phillips, (805) 965-8868 or Jay Albert (805) 966-9602

In case of an extreme emergency, such as being hit by a car, you will be authorized to rush the pug to the Emergency Animal Clinic in your area and Pug Rescue of Santa Barbara will pay the bill, but we must be contacted immediately.

As potential adopters come forward, we will ask that you make the pug available to meet them, and your opinion will be valued as to how the pug takes to a potential adopter. Your feedback is always welcome, and we will count on you to keep us informed on the pug's mental and physical condition. Fostering a pug is one of the highest forms of rescue, and there are many forms of support we can offer you from others in our group who have a lot of experience in fostering. Thank you for wanting to provide shelter to a pug in need!

Any comments you wish to make:
